# Cloud Conversions

## Cloud Conversions

**In 2018, SME's that aren't on the cloud aren't in the game. A growing tide of financial add-ons and business support systems connected via cloud API's mean that traditional desktop systems are being shut out of new techniques and service offerings available to their cloud-based competitors.**

As Xero platinum partners, Receipt Bank gold, FUTRLI platinum and CHASER experts, Blu Sky are cloud conversion champions. We start with the conversion of your financial systems and build from there.

We can assist in full financial process mapping and revaluation as well as advising on further business ops add-ons such as HR and legal systems.

Blu Sky's dedicated team are ALL Xero certified advisors and all make use of the Xero eco system of add-ons extensively.

We work closely with add-ons in credit control, data extraction, financial reporting, access to capital and staff expense management.

Blu Sky work with a huge network of cloud integrators across the UK meaning that when we don't know the answer our network does, ensuring you get the best possible transition from desktop to cloud. We will also come back and review any snagging issues.

Our service doesn't stop once you're in the cloud though. We work with you in the following months and years to fine-tune the service offering and ensure that all your add-ons and integrations work for you in the most efficient way possible!

So, if you would like to harness the expertise of the Blu Sky Team then act now and contact us!

All our fixed fee packages cover the following:

- Software costs including the UK's leading cloud platform Xero as well as Xero add ons Receipt Bank and Blu Prints.
